WORK PROJECTS

DDFN – Fefifo | Tidalwave Technologies

- A system built to help with the goal of making farming easier for farmers.
- Designed and implemented an intuitive web-based admin console using ReactJS, allowing administrators to manage and monitor multiple farms efficiently.
- Developed a cross-platform mobile application using React Native to provide farmers with a user-friendly interface for farm-related activities.
- **Tech Stack:** *ReactJS, React Native, KoaJS*
- **Database:** *CouchDB, PouchDB, ArangoDB*

ERP – Server Lane Technologies

- Built different types of Enterprise Management Applications for various use cases
- Implemented a robust real-time transaction processing system capable of efficiently managing high-volume financial transactions while maintaining a detailed transaction history and logs
- Designed and integrated a comprehensive logging system to capture and store transaction details, enabling thorough audit trails and compliance with regulatory requirements.
- Developed a modular and extensible architecture, allowing seamless integration of new payment gateways without requiring significant changes to the core codebase.
- Reduced developer dependency by creating a user-friendly configuration interface, enabling non-technical users to manage and prioritize payment gateway preferences.
- Collaborated with cross-functional teams to gather requirements and ensure the system met the diverse needs of different projects and business scenarios.
- **Tech Stack:** *ReactJS, NextJS, ExpressTS, SQS*
- **Database:** *PostgreSQL, MongoDB*

WORK EXPERIENCE

– Server Lane Technologies | Mumbai, IN

Sept 2022 – Ongoing

Software Engineer

Working with ReactJS, NextJS, ExpressTS, PostgreSQL, MongoDB and AWS Services.

– Tidalwave Technologies | Mumbai, IN

Jan 2021 – Aug 2022

Software Developer

Experienced Working with ReactJS, React Native (FrontEnd) and KoaJS (Backend).

SKILLS

JavaScript	<i>ReactJS, ExpressJS, KoaJS</i>
TypeScript	<i>ExpressTS, NextTS</i>
SQL	<i>PostgreSQL</i>
NoSQL	<i>MongoDB, ArangoDB, CouchDB</i>
Containers	<i>Docker, AWS ECS</i>
Frontend	<i>ReactJS, NextTS, React Native</i>
Mobile	<i>React Native, Flutter</i>
MQ	<i>RabbitMQ, SQS</i>

MOST RECENT EDUCATION

Bachelor in Computer Application

Tilak Maharashtra Vidyapeeth

06/2017 - 10/2020
